

Mary Kiffmeyer, Chair
Electronic Real Estate Recording Task Force
180 State Office Building
Saint Paul MN 55155

Dear Chair Kiffmeyer,

_____ County is a pilot county and has a contract with the Electronic Real Estate Recording Task Force for the implementation of a pilot program.

Under that contract, the County and the Task Force have agreed that the standards under which the pilot is designed and operated will not change during any phase of the pilot, although they may be adjusted between Phase I and Phase II or after Phase II.

In order to take advantage of software improvements and other technological advances, however, _____ County hereby waives its right to remain under the earlier standards and hereby states that it wishes to adopt the most recent standards for its pilot operations.

_____ County understands that the Task Force has already agreed to allow any pilot County requesting to adopt the most recent standards to do so by letter.

Sincerely,

Project Manager
_____ County
