Minnesota Legislative Commission on Pensions and Retirement Function and Creation

■ Function of the Pension Commission

- The Pension Commission is a joint agency of the Minnesota Legislature.
- The Pension Commission performs four major functions:
 - i) reviews and makes recommendations to standing legislative committees on pending proposed public pension legislation;
 - ii) conducts ongoing research on pension policy issues;
 - iii) provides legislative oversight for Minnesota's system of over 700 public employee pension plans; and
 - iv) assesses the sufficiency of current public pension plan funding and recommends required modifications.
- The Minnesota Pension Commission is one of almost two dozen state pension commissions nationwide.

Creation of the Pension Commission

Initially established as an Interim Commission

```
1943 (Laws 1943, Chapter 449)
1955 (Laws 1955, Chapter 829)
1957 (Extra Session Laws 1957, Chapter 13)
1959 (Extra Session Laws 1959, Chapter 82)
1963 (Laws 1963, Chapter 888, Section 9)
1965 (Laws 1965, Chapter 888, Section 5)
```

- No Pension Commission was established during the 1961-1963 Biennium
- Pension Commission established as a permanent entity in 1967
 (Laws 1967, Chapter 549; coded as Minnesota Statutes, Section 3.85)
- Pension Commission is the oldest extant Minnesota Legislative Commission

Legislative Commission on Pensions and Retirement **Composition**

■ Composition of the Pension Commission

- The Commission consists of five members of the House of Representatives and five members of the Senate
- The House members of the Commission are appointed by the Speaker of the House
- The Senate members of the Commission are appointed by the Subcommittee on Committees of the Senate Rules Committee
- 105 legislators have served on the Commission 1943-2006, during 259 two-year terms (including mid-term vacancies that were filled)
- Length of service by Commission members 1943-2006:

Total Years	Number of	Percent
of Service	Members	of Total
1 Year	4	3.81%
2 Years	40	38.10%
3 Years	1	0.95%
4 Years	20	19.05%
6 Years	21	20.00%
7 Years	1	0.95%
8 Years	3	2.86%
10 Years	6	5.71%
11 Years	2	1.90%
12 Years	3	2.86%
16 Years	1	0.95%
18 Years	1	0.95%
20 Years	1	0.95%
22 Years	1	0.95%

• Geographical distribution of Commission members, by membership number and by Commission membership term 1943-2006

	Number of	Percent of	Total	Percent of
	Members	Total Membership	Terms	Total Terms
Duluth	1	1.0%	1	0.4%
St. Paul	15	14.3%	32.5	12.5%
Minneapolis	23	21.9%	63.5	24.5%
Suburban Twin Cities	19	18.1%	49	18.9%
Greater Minnesota	47	44.8%	113	43.6%

Legislative Commission on Pensions and Retirement Operation and Resources

Operation of the Pension Commission

- The Commission Chair sets the general direction of the Commission.
- The Commission Chair has a two-year term.
- The Commission Chair alternates between the House and Senate membership; the Chair and other Commission officers are elected from and by the Commission membership.
- After appointment, the Commission typically meets weekly during the Legislative Session until the initial committee bill hearing deadline.
- During the Interim, the Commission typically meets monthly.
- By longstanding agreement, the House and Senate committees with jurisdiction over pensions refrain from hearing proposed pension legislation until receiving a recommendation from the Commission.
- The Commission recommendation of proposed pension legislation requires a majority vote of the total commission membership of both the House and the Senate; all other Commission actions require simple majority vote of Commission members in attendance.
- The Commission recommendation on proposed pension legislation is typically accompanied by Commission-approved amendments.
- Commission recommended proposed pension legislation is typically consolidated into one or a small number of "Omnibus" Pension Bills.
- Commission recommended proposed pension legislation affecting pension benefits is typically accompanied by an actuarial cost estimate, generally prepared by the actuary retained jointly by the statewide and major local retirement administrations.

Staffing of the Commission

• The Commission employs a permanent staff of 3.5 full-time equivalent positions.

Actuarial Resources

- The official actuarial work for most Minnesota defined benefit plans is prepared by consulting actuarial firms retained by the five statewide or major retirement systems.
- The Commission retains a consulting actuary who reviews the actuarial work prepared by the consulting actuaries retained by the retirement systems and replicates selected actuarial work.

Legislative Commission on Pensions and Retirement Level of Proposed Public Pension Legislation

■ General Level of Public Pension Legislation

- Historically, an average of 78 public pension bills are introduced annually
- Commission typically reviews 85 percent of proposed pension legislation introduced
- Typically, 40 introduced public pension bills annually are ultimately heard in some form by standing committees
- Proposed pension legislation typically covers a broad range of plans and circumstances:
 - 25 percent related to major statewide plans
 - 13 percent related to minor statewide plans
 - 6 percent related to local general employee plans
 - 15 percent related to police and paid fire pension plans
 - 8 percent related to volunteer fire relief associations
 - 20 percent related to individual or small group requests
 - 13 percent related to miscellaneous pension topics

Legislative Commission on Pensions and Retirement Principles of Pension Policy

I. Preamble

The Legislative Commission on Pensions and Retirement recommends the following statement of principles, which have been developed since 1955, as the basis for evaluating proposed public pension legislation. Problems can be avoided or minimized if a sound set of principles is used as a guideline in developing the various public pension funds and plans.

II. Substantive Principles

A. Purpose of Minnesota Public Pension Plans

- 1. Minnesota public pension plans exist to augment the Minnesota public employer's personnel and compensation system by assisting in the recruitment of new qualified public employees, the retention of existing qualified public employees, and the systematic out-transitioning of existing public employees at the normally expected conclusion of their working careers or the systematic phasing-out of existing employees who are nearing the normally expected conclusion of their full-time working careers by providing, in combination with federal Social Security coverage, personal savings and other relevant financial sources, retirement income that is adequate and affordable.
- Minnesota public pension plans should play their appropriate role in providing financial security to public employees in retirement.
- As Minnesota public employee workforce trends develop, Minnesota public pension plans should be sufficiently flexible to make necessary adaptations.

B. Structure of Minnesota Public Pension Coverage

1. Creation of New Pension Plans

- Minnesota public employers, on their own initiative, without legislative authorization, should not be permitted to establish or maintain new public pension plans, except for volunteer firefighter relief associations.
- b. New pension plans for volunteer firefighters should be organized on a county or comparable regional basis if possible.

2. Mandatory Public Pension Plan Membership

To the extent possible, membership in a public pension plan should be mandatory for the personnel employed on a recurring or regular basis.

Consolidation of Public Pension Plans by a Minnesota Public Employer

- The state, with the second largest number of public employee pension plans in the nation, would benefit from a more rational public pension plan structure.
- b. The voluntary consolidation of smaller public pension plans should be encouraged, with the development of county or comparable regional public employee pension plans in place of a large number of small local plans to assist in this consolidation if a statewide public pension plan is deemed to be inappropriate.

- c. In a consolidation or merger of public employee pension funds, there should be no loss of current pension benefits by any member of the consolidating or merging funds.
- d. In a consolidation or merger of public employee pension funds, approval of the affected Boards of Trustees or Directors, the members, and the employers of the consolidating or merging funds should be obtained before the consolidation or merger is finalized.

C. Pension Benefit Coverage

General Preference for Defined Benefit Plans Over Defined Contribution Plans

- Defined benefit plans, where they currently exist, should remain as the primary retirement coverage for Minnesota public employees.
- b. Defined contribution plans are particularly appropriate where interstate portability or private sector-public sector portability is a primary consideration of the public employee group, where the public employee group lacks civil service or analogous employment protections, or where the defined contribution plan is a supplemental pension plan.

2. Social Security Coverage

Except for public employees who are police officers or firefighters, coverage by the federal Old Age, Survivors, Disability and Health Insurance (Social Security) Program should be part of the retirement coverage for Minnesota public employees.

3. Equal Treatment Within Pension Plans

There should be equal pension treatment of public employees in terms of the relationship between benefits and contributions.

4. Appropriate Normal Retirement Ages

The normal retirement age should be set in a reasonable relationship to the employability limits of the average public employee and should differentiate between regular public employees and protective and public safety employees.

5. Appropriate Early Retirement Reductions

Public employee pension plans should not subsidize early retirement benefits and, except for appropriately designed early retirement incentive programs, retirement benefits should be actuarially reduced for retirement before any applicable normal retirement age.

6. Uniformity and Equal Benefit Treatment Among Plans

There should be equal pension treatment in terms of the relationship between benefits and contributions among the various plans and, as nearly as practicable, within the confines of plan demographics, retirement benefits and member contributions should be uniform.

7. Adequacy of Benefits at Retirement

- Benefit adequacy requires that retirement benefits respond to changes in the economy.
- The retirement benefit should be adequate at the time of retirement.
- c. Except for local police or firefighter relief associations, the retirement benefit should be related to an individual's final average salary, determined on the basis of the highest five successive years' average salary unless a different averaging period is designated by the Legislature.
- d. Except for local police or firefighter relief associations, the measure of retirement benefit adequacy should be at a minimum of thirty years service, which would be a reasonable public employment career, and at the generally applicable normal retirement age.
- Retirement benefit adequacy must be a function of the Minnesota public pension plan benefit and any Social Security benefit payable on account of Minnesota public employment.

8. Postretirement Benefit Increases

- a. Retirement benefits should be increased during the period of retirement to offset the impact of economic inflation over time in order to maintain a retirement benefit that was adequate at the time of retirement.
- The system of periodic post retirement increases should be funded on an actuarial basis.

9. Portability

To the extent feasible, portability should be established as broadly as possible for employment mobile public employees.

10. Purchases of Prior Service Credit

Purchases of public pension plan credit for periods of prior service should be permitted only if it is determined by the Commission:

- that the period to be purchased is public employment or relates substantially to the public employee's career,
- that the purchase payment amount from the member or from a combination of the member and the current or former employer must equal the actuarial liability to be incurred by the pension plan for the benefit associated with the purchase, appropriately calculated, without the provision of a subsidy from the pension plan unless an error or an omission by the pension plan was responsible for the loss of service credit,
- that the purchase payment amount must include a minimum payment by the member of the equivalent member contributions, plus compound interest from the purchase period to the date of payment unless the employer committed a particularly egregious error,
- that the purchase payment is the responsibility of the member, with the current or former employer authorized to pay some or all of the portion of the payment amount in excess of the minimum member payment amount, unless the employer has some culpability in the circumstances giving rise

to the purchase and then a mandatory employer contribution may be imposed, and

• that the purchase must not violate notions of equity.

11. Deadline Extensions and Waivers

Deadline extensions or waivers should be permitted only if, on a case-by-case basis, it is determined that there is a sufficient equitable basis for the extension or waiver, the extension or waiver does not involve broader applicability than the pension plan members making the request, and that the extension or waiver is unlikely to constitute an inappropriate precedent for the future.

12. Vesting Requirement Waivers

Waivers of vesting requirements should be permitted only if, on a case-by-case basis, it is determined that there is a strong equitable argument to grant the waiver for the requesting public employees.

13. Reopening Optional Annuity Elections

Reopenings of optional annuity elections should not be permitted.

14. Benefit Increase Retroactivity

Retroactivity of benefit increases for retirees and other benefit recipients should not be permitted.

Repayment of Previously Paid Benefits and Resumptions of Active Member Status

Repayments of previously paid benefits and resumptions of active member status should not be permitted.

16. <u>Duplicate Public Pension Coverage for the Same Employment</u>

Unless supplemental pension plan coverage is involved, public employees should not have coverage by more than one Minnesota public pension plan for the same period of service with the same public employer.

17. Reemployed Annuitant Earnings Limitations

- a. Limitations on the earnings by reemployed annuitants should apply only to the reemployment of an annuitant by an employing unit that is a participating employer in the same public pension plan from which the annuitant is receiving a pension benefit.
- Reemployed annuitant earnings limitations should be standardized to the extent possible among the various Minnesota public pension plans.

18. Disability Definitions

The definitions of what constitutes a disability giving rise to a disability benefit should be standardized to the extent possible, recognizing the differences in the hazards inherent in various types of employment.

19. Design of Early Retirement Incentive Programs

- a. Early retirement incentive programs can have a valid role to play in the public sector personnel system.
- Early retirement incentive programs should be targeted to situations when a public employer needs to reduce staffing levels beyond normal attrition.

c. Early retirement incentive programs should be financed appropriately, with the cost of the benefits provided under the early retirement incentive program borne wholly by the same public employer that gains any compensation savings from a staffing level reduction, without any subsidy from the affected public pension plan.

20. Future Pension Coverage for Privatized Public Employees

Because of applicable federal regulation, employees of public employers that are privatized should not be allowed to continue public pension plan coverage in the future. Privatized public employees should receive adequate replacement pension coverage and a better resolution of this topic should be raised with appropriate federal government officials.

21. Supplemental Pension Plans

- a. Public employees should be encouraged to engage in personal savings for their retirement.
- The state should assist this process by making personal retirement savings opportunities available to public employees.
- Public employers should have an opportunity to elect to provide financial support to established supplemental pension arrangements for their employees.

22. No Intended Ultimate Benefit Diminutions

- In recommending benefit plan modifications, the imposition of reductions in overall benefit coverage for existing pension plan members should not be recommended.
- b. The imposition of a reduction in overall benefit coverage may be imposed for new pension plan members in order to achieve sound pension policy goals.
- c. A reduction in some aspect or aspects of benefit coverage may be recommended in combination with a proposed benefit increase or benefit increases in implementing sound pension policy goals.

D. Pension Plan Funding

1. Equal Pension Financing Burden for Generations of Taxpavers

There should be utilized a financing method that will distribute total pension costs fairly among the current and future generations of taxpayers and that will discourage unreasonable benefit demands.

2. Actuarial Funding of Pension Benefits

- Except for statewide retirement plans with small phasing-out memberships, retirement benefits in Minnesota defined benefit plans should be funded on an actuarial basis.
- b. The accruing liability for currently earned pension plan service credit, as measured by the actuarially determined level percentage of covered salary entry age normal cost of the defined benefit pension plan, should be funded on a current basis
- c. The administrative expenses of the defined benefit pension plan should be funded on a current basis.

- d. Retirement plan accrued liabilities and normal cost should be determined using the entry age normal actuarial cost method.
- Pension plan assets should be valued using a method that approaches market values, but smoothes out short-term volatility.
- f. Unfunded actuarial accrued liabilities of a defined benefit pension plan, determined by subtracting the actuarial value of assets from the calculated actuarial accrued liability, should be amortized over an extended period of time, but should not exceed thirty years.
- g. A portion of any amount by which the actuarial value of assets exceed the actuarial accrued liabilities of a defined benefit plan should be recognized as a credit against the normal cost, and the amount of the credit should be calculated in the same manner as if it were an amortization contribution with a 30-year amortization target date.

3. Allocation of Funding Burden Between Members and Employers

- a. The actuarial cost of retirement benefit coverage should be financed on a shared basis between the public employee and the public employer.
- b. For general public employee retirement plans that are not closed to new members, the employee and employer should make matching contributions to meet the normal cost and the administrative expenses of the defined benefit pension plan. Both the employee and the employer also may be required to share some financial responsibility for funding the amortization requirement of the defined benefit pension plan.
- c. For general public employee retirement plans that are closed to new members, the employee and employer contributions should be set based on the contribution structure of analogous retirement plans.
- d. For protective and public safety employees covered by a statewide public pension plan, the employee should pay forty percent of the total actuarial costs of the defined benefit pension plan and the employer should pay sixty percent of the total actuarial costs of the defined benefit pension plan.
- e. For protective and public safety employees covered by a local relief association, employee and employer contributions should be considered in light of the special circumstances and history unique to that association. Employees should pay an appropriate portion of the normal cost and administrative expenses of the relief association.
- Actuarial reporting laws should be structured to permit easy application and monitoring of any contribution policy.

4. Funding of Postretirement Adjustments

- Ad hoc postretirement adjustments should be funded separately from the regular defined benefit public pension plan financing and should not be added to the unfunded actuarial accrued liability of the defined benefit public pension plan.
- Automatic postretirement adjustment mechanisms should be funded on an actuarial basis as part of the actuarial requirements and contribution structure of the defined benefit public pension plan.

5. Appropriate Basis for Actuarial Assumption Changes

- Actuarial assumption changes should only be based on the results of the gain and loss analyses in the regular actuarial valuation reports and the results of a periodic experience study.
- Actuarial assumption changes should stand on their own merit, and should not be changed solely to improve benefits or to lower contribution rates.

6. Appropriate Basis for Modifying Contribution Rates

Member and employer contribution rates should only be modified based on the trend in total support rate deficiency or sufficiency revealed in the regular actuarial valuation reports.

E. Pension Plan Investments

1. Appropriate Investment of Public Pension Assets

- a. Public pension plan investment authority should be as uniform as is practicable.
- Public pension plan investments should be made in accord with the prudent person rule.
- c. Public pension plan investment authority should be further regulated by a list of authorized investment types, which should appropriately differentiate between pension plans based on asset size and investment expertise.
- d. Written investment policies should be maintained for the investment of public pension plan assets.
- e. Public pension plans should regularly report on their investments, including performance.

2. Sole Membership Benefit Dedication of Plan Assets

Recognizing that public pension plan assets exist to defray current and future pension benefit payments, public pension plan assets should be dedicated to the sole benefit of the plan membership in their investment and expenditure.

F. Compliance With Federal Pension Plan Regulation

Consistent with the principles of federalism, dual sovereignty, and comity among governmental entities, public pension plan provisions and administrative operations and activities should attempt to comply with applicable federal pension plan regulation in order to maintain the tax qualified status of public pension plans.

G. Public Pension Plan Fiduciary Responsibility

1. Strong Fiduciary Responsibility Standards

Public pension plan activities should be conducted in accord with strong fiduciary responsibility standards and regulation.

2. Remedies for Fiduciary Breach

Failures to conduct public pension plan activities in accord with the applicable fiduciary responsibility standards and regulation should be subject to appropriate fiduciary breach remedies.

III. Procedural Principles of Pension Policy

A. Adequate Pension Funding

1. Pre-Existing Funding

No proposed increase in pension benefits for any public pension plan should be recommended by the Legislative Commission on Pension and Retirement until there is established adequate financing to cover the pre-increase normal cost, administrative expense, and amortization contribution requirements of the defined benefit public pension plan calculated according to the applicable actuarial reporting law.

2. Funding Increase

No proposed increase in pension benefits for any defined benefit public pension plan should be recommended by the Legislative Commission on Pensions and Retirement unless there is included, in the proposal, adequate financing to meet any resulting increase in the normal cost and amortization contribution requirements of the defined benefit public pension plan that are estimated by the applicable actuary to result from adopting the proposed benefit increase.

B. Preference for General Legislation

No pension legislation of local or special limited application should be recommended by the Legislative Commission on Pensions and Retirement if the purpose and the intent of the proposed legislation would be better served by legislation of general statutory application or if the proposed legislation constitutes a significant departure from previously established uniform pension policy. Pension legislation affecting local police or salaried firefighters may be recommended by the Legislative Commission on Pensions and Retirement in light of any special circumstances that are unique to the relief association.

C. Explicit Application of Principles of Pension Policy

1. Measurement Against Principles

Each proposed change in retirement benefits or financing should be measured by the Legislative Commission on Pension and Retirement against the current principles of pension policy as part of its consideration to insure that there is adherence to sound pension policy.

2. Formal Reporting of Consistency

The Commission's determination concerning compliance with the principles of pension policy should be a part of the Commission's formal report of its recommendations on proposed public pension legislation.

Minnesota Public Pension Plans

Defined Benefit Plans and Defined Contribution Plans

Minnesota Defined Benefit Plans

A. Statewide Plans

- General State Employees Retirement Plan of the Minnesota State Retirement System (MSRS-General)
- 2. MSRS Correctional State Employees Retirement Plan (MSRS-Correctional)
- 3. State Patrol Retirement Plan
- 4. Judges Retirement Plan
- 5. Legislators Retirement Plan
- 6. Elected State Officers Retirement Plan
- 7. Military Affairs Personnel Retirement Plan
- 8. Department of Transportation Pilots Retirement Plan
- 9. State Fire Marshal Division Arson Investigators Retirement Plan
- 10. General Employee Retirement Plan of the Public Employees Retirement Association (PERA-General)
- 11. Public Employees Police and Fire Retirement Plan (PERA-P&F)
- 12. Local Government Correctional Service Retirement Plan (PERA-Correctional)
- 13. Teachers Retirement Association (TRA)
- 14. University of Minnesota Faculty Supplemental Retirement Plan

B. Local Plans

- 1. Duluth Teachers Retirement Fund Association (DTRFA)
- 2. St. Paul Teachers Retirement Fund Association (SPTRFA)
- 3. Fairmont Police Relief Association
- 4. Minneapolis Firefighters Relief Association
- 5. Minneapolis Police Relief Association
- 6. Virginia Fire Department Relief Association
- 7. Various volunteer firefighter relief associations

Minnesota Defined Contribution Plans

A. Statewide Plans

- 1. MSRS Unclassified Employees Retirement Program (MSRS-Unclassified)
- 2. Higher Education Individual Retirement Account Plan (MnSCU-IRAP)
- 3. Higher Education Supplemental Retirement Plan (MnSCU-Supplemental)
- 4. PERA Defined Contribution Retirement Plan
- 5. Ambulance Service Personnel Longevity Plan
- 6. University of Minnesota Faculty Retirement Plan

B. Local Plans

- 1. Hennepin County Supplemental Retirement Plan
- 2. Various volunteer firefighter relief associations
- 3. Various Housing and Redevelopment Authority (HRA) retirement plans

Minnesota Public Pension Plans Growth and Development

- The earliest Minnesota public pension plans were the St. Paul Fire Department Relief Association, incorporated in 1868, the Minneapolis Fire Departmental Relief Association, incorporated in 1874, and the Fergus Falls Fire Department Relief Association, also incorporated in 1874.
- All Minnesota public pension plans established before 1900 were public safety plans.
- Minnesota public pension plans were created on patchwork basis, generally covering uncovered groups rather than reorganizing existing plan coverage.
- The first general employee retirement plans were teacher retirement plans (Duluth Teachers Retirement Fund Association (DTRFA) in 1910, Minneapolis Teachers Retirement Fund Association (MTRFA) in 1910, St. Paul Teachers Retirement Fund Association (SPTRFA) in 1910, and the Teachers Insurance and Retirement Fund in 1915).
- The first statewide retirement plans were the Teachers Insurance and Retirement Fund in 1915, the State Employees Retirement Association (now MSRS-General) in 1929, and the Public Employees Retirement Association (PERA) in 1931.
- The first retirement plan to default was the Teachers Insurance and Retirement Fund. Plan was replaced by the Teachers Retirement Association (TRA) in 1931.
- The latest retirement plans were established in 1999 (State Fire Marshal Arson Investigator Retirement Plan and the local Government Correctional Retirement Plan).
- Retirement plan creation, count by decade:

1860's	1	1930's	11
1870's	0	1940's	23
1880's	3	1950's	11
1890's	6	1960's	12
1900's	6	1970's	3
1910's	8	1980's	5
1920's	2	1990's	2

 Some retirement plans have been closed to new entrants, with replacement coverage by another public pension plan or benefit program (Minneapolis Employees Retirement Fund (MERF), St. Paul Teachers Retirement Fund Association (SPTRFA)-Basic Program, Duluth Teachers Retirement Fund Association (DTRFA)-Old Law Program, Minneapolis Firefighters Relief Association, Minneapolis Police Relief Association, Fairmont Police Relief Association, and Virginia Fire Department Relief Association).

Minnesota Public Pension Plans Growth and Development

- Many retirement plans have been merged into another plan:
 - Game Wardens Retirement Plan and State Police Retirement Plan into the State Patrol Retirement Plan;
 - County and Probate Court Judges Retirement Plan, District Court Judges Retirement Plan, and Supreme Court Justices Retirement Plan into the Uniform Judicial Retirement Plan;
 - Attorney General Retirement Plan and State Auditor Retirement Plan into the Elected State Officers Retirement Plan:
 - Supreme Court Clerk Retirement Plan into the Unclassified Employees Retirement Program of the Minnesota State Retirement System (MSRS-Unclassified);
 - St. Paul Bureau of Health Relief Association into the General Employees Retirement Plan of the Public Employees Retirement Association (PERA-General);
 - Fridley Paid Firefighters Relief Association, Cloquet Firefighters Relief Association, Eveleth Paid Firefighters Relief Association, Eveleth Police Relief Association, Thief River Falls Police Relief Association, Brooklyn Center Police Relief Association, Moorhead Firefighters Relief Association, and Moorhead Police Relief Association into the Public Employees Police and Fire Retirement Plan (PERA-P&F), 1973-1985;
 - Metropolitan Transit Commission Transit Operating Division Retirement Plan into the General State Employees Retirement Plan of the Minnesota State Retirement System (MSRS-General);
 - University of Minnesota Police Retirement Plan into the Public Employees Police and Fire Retirement Plan (PERA-P&F);
 - 44 local police or paid firefighter relief associations into the Public Employees Police and Fire Retirement Plan (PERA-P&F), 1987-1998;
 - Minneapolis Teachers Retirement Fund Association (MTRFA) into the Teachers Retirement Association (TRA); and
 - Minneapolis Employees Retirement Fund (MERF) into the General Employees
 Retirement Plan of the Public Employees Retirement Association (PERA-General).

Notes:

- Before the 1973 creation of the Correctional Employees Retirement Plan, coverage was provided by the General State Employees Retirement Plan.
- Game Wardens Retirement Plan was replaced by the State Police Retirement Plan in 1961.
- 3 State Police Retirement Plan consolidated with the State Patrol Retirement Plan in 1969.
- ⁴ Before the 1965 creation of the Legislators Retirement Plan, coverage was provided by the Public Employees Retirement Plan. The plan was closed to new interests as of July 1, 1997, and existing members were permitted to elect coverage by the Unclassified State Employees Retirement Program.
- ⁵ Coverage was shifted to the Elective State Officers Retirement in 1967.
- ⁶ Coverage limited to judges who first assumed judicial office before January 1, 1974.
- ⁷ Plan was repealed in 1980. Coverage for the membership of the prior plan was transferred to the Unclassified State Employees Retirement Program in 1981, retroactive to the date of initial appointment to employment position.
- 8 Before creation of the plan, coverage was provided by the General State Employees Retirement Plan.
- Before creation of the program, coverage was provided by the General State Employees Retirement Plan. Program members retain the option to select General State Employees Retirement Plan benefits if the member has at least ten years of state service.
- ¹⁰ The plan was acquired by the Metropolitan Transit Commission from the prior employer, the Twin City Rapid Transit Co. in 1970. The plan consolidated with the General State Employees Retirement Plan in 1978.
- ¹¹ Before creation of the Public Employees Police and Fire Retirement Plan in 1959, coverage was provided by the Public Employees Retirement Plan. In 1999, the various police and salaried firefighter consolidation accounts were merged into this plan.
- ¹² The 1987 plan was not implemented by any of the counties authorized to do so by 1997 and was repealed. A replacement plan was enacted in 1999.
- For local government elected officials added to eligibility for coverage by the plan in 1990, coverage is optional and prior coverage, if any, was by the Public Employees Retirement Plan.
- 14 Before creation of the plan, prior coverage was by the General State Employees Retirement Plan. Plan consolidated into the Public Employees Police and Fire Retirement Plan in 1978.
- ¹⁵ Plan was replaced by the Teachers Retirement Plan.

Minnesota Public Pension Plans Establishment

- ¹⁶ Before creation of the Individual Retirement Account Plan in 1988, coverage was provided by the Teachers Retirement Plan.
- 17 Plan was closed to new entrants as of June 30, 1979. Coverage for applicable employees initially hired after June 30, 1979 is provided by the Public Employees Retirement Plan. Administration of the plan was transferred to PERA on June 30, 2010.
- Plan was closed to new entrants as of December 31, 1969, in favor of the Public Employees Retirement Plan, and short service members and members opting for Social Security coverage were transferred to the Public Employees Retirement Plan. Plan was consolidated into the Public Employees Retirement Plan in 1973.
- ¹⁹ Plan was closed to new entrants and reemployed former members as of April 14, 1982.
- ²⁰ Plan was authorized in 1909, but not implemented until 1910.
- ²¹ Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1993.
- ²² Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1991.
- ²³ Plan was closed to new entrants in 1973 and consolidated into the Public Employees Police and Fire Plan in 1989.
- ²⁴ Plan was closed to new entrants in 1976 and consolidated into the Public Employees Police and Fire Plan in 1998.
- ²⁵ Plan consolidated into the Public Employees Police and Fire Plan in 1978.
- ²⁶ Plan was closed to new entrants in 1976 and consolidated into the Public Employees Police and Fire Plan in 1987.
- ²⁷ Plan was closed to new entrants in 1973, and consolidated into the Public Employees Police and Fire Plan in 1990.
- ²⁸ Plan consolidated into the Public Employees Police and Fire Plan in 1973.
- ²⁹ Plan was closed to new entrants in 1975 and consolidated into the Public Employees Police and Fire Plan in 1994.
- ³⁰ Plan was closed to new entrants in 1977 and consolidated into the Public Employee Police and Fire Plan in 1994.
- ³¹ Plan consolidated into the Public Employees Police and Fire Plan in 1990.
- ³² Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1992.
- ³³ Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1987.
- ³⁴ Coverage for active members was transferred to the Public Employees Police and Fire Plan in 1977 and plan was converted to city-operated trust fund for benefit recipients.
- 35 Coverage for salaried firefighters was transferred to the Public Employees Police and Fire Plan in 1973; Plan continues as volunteer firefighters relief association.
- ³⁶ Plan coverage was terminated in 1973.
- ³⁷ Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1989.
- ³⁸ Plan was closed to new entrants in 1971 and consolidated into the Public Employees Police and Fire Plan in 1990.
- ³⁹ Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1985.
- 40 Coverage for active members was transferred to the public Employees Police and Fire Plan in 1969 and plan operates as trust fund for benefit recipients.
- ⁴¹ Plan was closed to new entrants in 1974 and consolidated into the Public Employee Police and Fire Plan in 1994.
- ⁴² Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1990.
- ⁴³ Plan was closed to new entrants in 1974 and consolidated into the Public Employees Police and Fire Plan in 1989.
- ⁴⁴ Plan was closed to new entrants in 1973 and consolidated into the Public Employees Police and Fire Plan in 1997.
- ⁴⁵ Coverage for active members was transferred to the Public Employees Police and Fire Plan in 1978 and plan was converted to city-operated trust fund for benefit recipients.
- ⁴⁶ Plan was closed to new entrants as of June 15, 1980, and consolidated into the Public Employees Police and Fire Plan in 1988.
- ⁴⁷ Plan was closed to new entrants as of June 15, 1980 and consolidated into the Public Employees Police and Fire Plan in 1996.
- ⁴⁸ Plan was closed to new entrants in 1977.
- ⁴⁹ Plan was closed to new entrants in 1976 and consolidated into the Public Employees Police and Fire Plan in 1993.
- ⁵⁰ Plan was closed to new entrants in 1977 and consolidated into the Public Employees Police and Fire Plan in 1993.
- ⁵¹ Plan was closed to new entrants in 1974.
- ⁵² Plan was closed to new entrants as of June 15, 1980.
- Fig. 53 Plan was closed to new entrants as of July 1, 1997. Existing members were permitted to elect coverage by the Unclassified State Employees Retirement Program.
- Judges who reach the service credit maximum in the Judges Retirement Plan are covered by the Unclassified State Employees Retirement Program for future service (employee contribution only).
- 55 The plan covers volunteer firefighters, but because it provides benefits based on the salary of a top grade Bloomington police officer, with post-retirement escalation, the plan is considered to be a salaried firefighter pension plan.
- ⁵⁶ The plan was closed to new entrants in 1980 and consolidated into the Public Employees Police and Fire Plan in 1998.
- ⁵⁷ The plan was closed to new entrants in 1980 and consolidated into the Public Employees Police and Fire Plan in 1997.
- 58 The plan was authorized in 1909, but not implemented until 1910, and the plan was consolidated into the Teachers Retirement Association in June 2006.

¹ Administrative consolidation of MERF into PERA in 2010.

² MTRFA merged into TRA in 2006.

³ Plan is terminally funded, meaning that the State contribution is made only upon the retirement of each participant.

⁴ Plan is funded on a current disbursements or "pay-as-you-go" basis; the state funds the retirement annuities or benefits monthly when they are done.

⁵ Plan is funded also with a direct State appropriation, excluded from this calculation, which would increase the total employer contribution amount. As part of the 2006 consolidation of MTRFA into TRA, the MTRFA direct State appropriation transferred to TRA.

Note: These increases are permanent increases to retiree annuities.

Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) annual average percent change

² The MPRIF was abolished and merged with the respective active member funds on June 30, 2009

³ MTRFA first paid a post retirement adjustment under the new system on 1/1/94. MTRFA was merged into TRA in 2006.

⁴ DTRFA first paid a post retirement adjustment under the new system on 1/1/96

⁵ SPTRFA first paid a post retirement adjustment under the new system on 1/1/98

Nature of Actuarial Funding

- Actuarial funding is a mechanism for:
 - 1. Determining the magnitude of pension liabilities previously undertaken by a defined benefit pension plan;
 - 2. Comparing the current pension plan assets reserved for pension purposes with the accrued pension liabilities amassed by a defined benefit pension plan; and
 - 3. Assessing the adequacy of total annual contribution support to meet the total annual funding requirements of a defined benefit pension plan.
- Actuarial funding differs from non-actuarial pension funding, which is typically represented by current disbursements (pay-as-you-go) funding, as used by the Social Security System historically.
- Many different actuarial funding methods exist and were developed primarily to meet the budgetary needs of a plan sponsor.
- Minnesota utilizes the Entry Age Actuarial Cost Method (or Entry Age Normal Cost Actuarial Cost Method), which emphasizes the determination of a level actuarial cost as a percentage of covered payroll over a plan member's working career.
- Minnesota actuarial reporting produces:
 - 1. A measure of the magnitude of accrued pension liability:

Actuarial Accrued Liability

2. A pension reserve comparison:

Current Assets (actuarial value of assets) Unfunded Actuarial Accrued Liability

Funding Ratio (assets expressed as a percentage of

liabilities)

3. Measure of contribution adequacy:

Funding Requirement

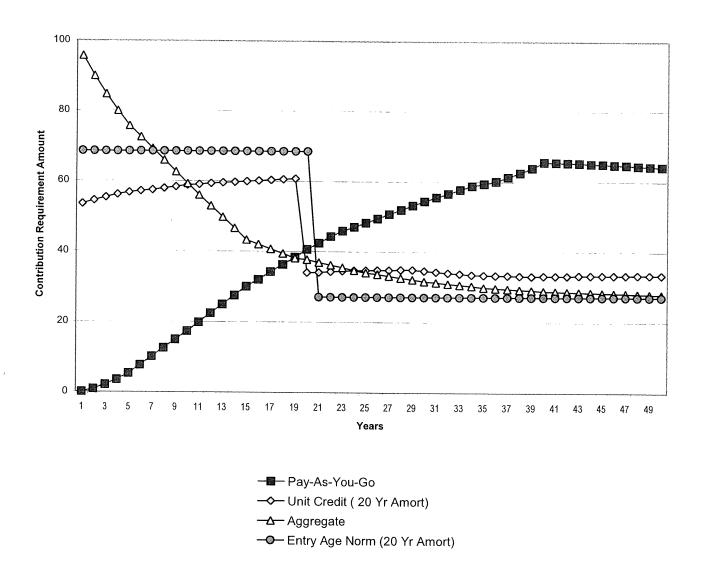

- 1. Normal Cost
- 2. Administrative Expenses
- 3. Supplementary (Amortization) Contribution Total Actuarial Requirement (1. + 2. + 3.)

Contributions

- 4. Member Contributions
- 5. Employer Contributions
- 6. State Aid or Other Regular Funding

Total Contributions (4. + 5. + 6.)

Pattern of Recognizing Pension Costs Over Time Under Various Funding Methods
