General Summary of S.F. 191 (Betzold), the Second Engrossment

Article 1: Minnesota Post Retirement Investment Fund Dissolution Accommodation implements the mandate of Laws 2008, Chapter 349, Article 2, Section 2, for the statutory changes necessary to conform with the dissolution of the Minnesota Post Retirement Investment Fund (MPRIF) by creating a retirement fund for the Legislators Retirement Plan for purposes of handling that plan's MPRIF participation and its drawdown, and by revising the definition of the actuarial value of assets for public pension plan actuarial valuation reporting purposes.

Article 2: Disability Benefit Provision Changes contains changes in the disability benefit programs of the General State Employees Retirement Plan of the Minnesota State Retirement System (MSRS-General), the MSRS Correctional State Employees Retirement Plan (MSRS-Correctional), and the State Patrol Retirement Plan. The article allows disability benefit applications for MSRS-General, MSRS-Correctional, and the State Patrol Retirement Plan to be filed within 18 months after termination of service rather than within 180 days (approximately six months). It also revises various MSRS-Correctional and State Patrol Retirement Plan disability provisions by specifying that disability transfer from disability status to normal retirement at age 55 rather than age 65. The article also includes State Patrol Retirement Plan duty disability provisions in employer-paid continuing health insurance coverage if so determined by the MSRS executive director, reorganizes the State Patrol Retirement Plan definitions, provides for the crediting of full monthly service credit in any month with salary receipt and member contribution deduction in the State Patrol Retirement Plan, newly defines the terms "duty disability," "less frequent duties," "normal duties," and "regular disability" for the State Patrol Retirement Plan, moves two State Patrol Retirement Plan leave of absence service credit provisions, renames the current State Patrol Retirement Plan primary disability coverage as a duty disability benefit, renames the State Patrol Retirement Plan non-duty disability benefit as a regular disability benefit, and makes conforming changes in the State Patrol Retirement Plan to accommodate the revised plan definitions provision.

Article 3: State Correctional Retirement Plan Membership Changes increases the occupational positions covered by the plan by one occupied position, automotive mechanic, and reduces the occupational positions covered by the plan by one vacant position, automotive mechanic lead.

Article 4: Administrative Provisions contains various administrative and other changes. All state employees with coverage by the General Employee Retirement Plan of the Public Employees Retirement Association (PERA-General) are included in the state's Post Retirement Option in addition to the PERA staff and the 30-day break requirement following the termination of a Post Retirement Option position for a renewal under age 62 is eliminated. The PERA board is allowed to cancel interest payments under \$10 if the employing unit has taken a credit for a member deduction in error. The period for making in lieu of deduction contributions to PERA for periodic and repetitive leaves and military leaves is extended by 50 percent and military leave in lieu of deductions payments are permitted only upon return to the pre-leave employer. Military service prior service credit purchases in PERA are limited to discharges other than dishonorable. The Weiner Memorial Medical Center is included in the PERA privatization chapter and the deadline date for approval of the inclusion of the Clearwater County Hospital in the PERA privatization chapter is extended from 2009 to 2010. The PERA and first class city teacher retirement fund association erroneous receipts provision and the overpayment recovery provision are revised. Special erroneous member deduction correction and benefit overpayment recovery provisions for the City of Duluth and for the Duluth Airports Authority are specified. The accrual date for Teachers Retirement Association (TRA) annuities is made more flexible. Medical exams for TRA or first class city teacher retirement fund association disability provisions are permitted to be waived by the administrator. A TRA prior military service credit purchase is reenacted. Restrictions are placed on automatic deposits to joint or multi-party accounts. Authority is expanded for some TRA members to elect a supplemental needs trust as the second life on a joint-and-survivor annuity. Various plan provisions are revised for consistency with federal law requirements. The TRA payroll cycle reporting requirements are revised to allow TRA to receive more timely information on reemployed annuitants. As part of a benefit denial appeal, a retirement plan executive director is permitted, but not required, to require a plan member who is appealing the executive director's decision on a disability or other benefit application to participate in a fact-finding session conducted by an administrative law judge, and if applicable have a vocational assessment. The TRA refund provisions by requiring that the accumulated value of any disability benefits an individual may have received must be deducted from any refund the individual or the individual's survivors will receive upon termination. TRA provisions are amended to shift reemployed annuitant exempt income determinations and reporting regarding these reemployed annuitants from a calendar year basis to a fiscal year basis. Adjustment for erroneous receipts and recovery of overpaid benefits provisions are added to the first class city teacher retirement fund association laws. Legislators are permitted to elect MSRS-General coverage in lieu of MSRS-Unclassified Program coverage and

legislators and judges are permitted to transfer from MSRS-Unclassified to MSRS-General after ten years of state service.

Article 5: Local Government Post-Retirement Options permits employees covered by the General Employee Retirement Plan of the Public Employees Retirement Association (PERA-General), other than PERA staff and PERA-covered state employees, who are at least age 62 and immediately eligible to draw a PERA retirement annuity, to terminate employment and be immediately rehired in a position which is at least a 25 percent reduction from previous hours and is no more than half-time. Availability of positions under this program is at the discretion of the governing body of the employing unit. While in the program, reemployed annuitant maximum exempt earnings limitations do not apply. This program expires June 30, 2011.

Article 6: Teacher Retirement Plan Benefit and Funding Changes amends the laws governing or affecting the Teachers Retirement Association (TRA) and the first class city teacher retirement fund associations, by providing that, starting in Fiscal Year 2013, state aid payments to school operating funds would be increased by a total of two percent of Fiscal Year 2012 covered salaries, in four equal one-half percent of salary increments, for employing units qualified to received state aid and covered by the Teachers Retirement Association (TRA), by the Duluth Teachers Retirement Fund Association (DTRFA), and by the St. Paul Teachers Retirement Fund Association (SPTRFA), by reducing, in 2011, the normal retirement age from age 66 to age 65 for those teachers who have a Social Security age 66 or age 67 full benefit receipt age, by extending to all teachers the age 62 with 30 years of service credit normal retirement age applicable to teachers hired before July 1, 1989, by increasing, in four annual installments beginning in 2011, the Coordinated Program member contribution rate by two percent of covered salary, by increasing, in four annual installments beginning in 2012, the Coordinated Program employer contribution rate by two percent of covered salary, by granting the applicable retirement board the authority to adjust member and employer contribution rates by one-quarter of one percent annual increments if the actuarial report of the retirement plan indicates a contribution deficiency or a contribution sufficiency after 2014, and by increasing the benefit accrual formula percentage rate for TRA and the two first class city teacher retirement plans for post-2011 service credit for the uniformity tier of benefits is increased from 1.9 percent per year to 2.1 percent per year and the benefit accrual formula percentage rates for the first class city teacher retirement fund associations' Coordinated Programs are increased to the post-2006 TRA benefit accrual formula percentage rates for the "Rule of 90" benefit tier for service rendered after July 1, 2011.

Article 7: MnSCU Related Retirement Provisions authorizes the Minnesota State Colleges and Universities System (MnSCU) Board of Trustees to establish an early separation incentive program consisting of either cash incentives, employer contributions to the Minnesota State Retirement System (MSRS) post-retirement health savings plan, or a combination of the two, and permits the incentives to be offered by the MnSCU Chancellor or by MnSCU college or university presidents to personnel consistent with MnSCU Board of Trustee-established eligibility requirements, with the cost of the incentives to be borne by the system office or by the applicable college or university, whichever applies, and which would sunset after five years. It also permits MnSCU faculty members a second opportunity to elect TRA coverage within one year of achieving tenure and by requiring those faculty members to purchase service credit for the pre-tenure service at the full actuarial value purchase price.

Article 8: St. Paul Teachers Retirement Fund Association Post-Retirement Adjustments modifies the 2007 St. Paul Teachers Retirement Fund Association (SPTRFA) two-year pilot program post-retirement adjustment mechanism with a federal Bureau of Labor Statistics Consumer Price Index increase based demonstration post-retirement adjustment mechanism, capped at five percent annually and expiring on June 30, 2011.

Article 9: Local Police and Paid Fire Relief Association Changes extends the Fairmont Police Relief Association amortization target date from 2010 to 2020 and allows the Minneapolis Firefighters Relief Association to reduce the size of its board of trustees.

Article 10: Voluntary Statewide Lump-Sum Volunteer Firefighter Retirement Plan establishes the Voluntary Statewide Lump-Sum Volunteer Firefighter Retirement Plan to be administered by the Public Employees Retirement Association (PERA) and a voluntary statewide lump-sum volunteer firefighter retirement fund to be invested by the State Board of Investment. The statewide plan would also have an advisory board drawn from local government associations and firefighting organizations. The statewide plan would provide 16 alternative lump sum per year of service service pension amounts, to be selected by the entity operating the volunteer fire department after receiving a cost estimate from PERA of the financial requirements of one or more potential benefit levels. Service pensions would be payable after the termination of active firefighting service, at or after age 50, with a partial benefit with five years of

service credit and a full benefit with 20 years of service. No deferred service pension interest and no ancillary benefits other than a survivor benefit would be payable. For the initial five years after a fire department joins the plan, only a service pension equal to the pre-plan membership volunteer fire relief association service pension amount would be payable. Fire state aid related to the fire department would be transmitted to the statewide plan and deposited in the voluntary statewide lump-sum volunteer firefighter retirement fund to the credit of the applicable account to offset upcoming required funding requirements. Any unfunded actuarial accrued liability of an account is required to be amortized over a ten-year period and crediting of a funding surplus against annual funding requirements is permitted if the account has at least three years of a funding surplus. The funding requirements for the statewide plan would be prepared using an actuarial procedure developed by the consulting actuary retained by PERA and would be based on a six percent interest actuarial assumption rate. If coverage by the statewide plan is elected, the prior volunteer firefighters' relief association would be dissolved, with the assets and liabilities of the prior relief association transferred to the statewide plan.

Article 11: Volunteer Fire Relief Association Changes, recommended by the Volunteer Fire Working Group, revises various portions of the volunteer firefighters' relief association laws. The provisions applicable to all types of volunteer firefighters' relief associations, the provisions applicable to defined contribution volunteer firefighters' relief associations, and the provisions applicable to defined benefit volunteer firefighters' relief associations are separated out and the various provisions are reorganized to more clearly specify the pertinent regulation. The prohibition on fire departments utilizing minors to perform any fire department activities is modified by an exception for activities by members of a youth group or educational institution that are performed with continuous adult supervision and conform to the applicable federal and state laws. The existing volunteer firefighters' relief association consolidation future benefit and funding provision is clarified as applicable to defined benefit plan volunteer firefighters' relief associations consolidating with defined benefit plan volunteer firefighters' relief associations and comparable volunteer firefighters' relief association consolidation future benefit and funding provisions are developed for the consolidation of defined contribution plan volunteer firefighters' relief associations with defined contribution plan volunteer firefighters' relief associations or for the consolidation of defined contribution plan volunteer firefighters' relief associations with defined benefit plan volunteer firefighters' relief associations. In instances where a municipality does not have a fire department with a firefighter relief association, the municipality is permitted to use fire state aid to pay the Public Employees Police and Fire Retirement Plan (PERA-P&F) employer contributions in addition to or instead of the currently permitted uses of fire equipment or fire department building acquisition or maintenance. Former firefighters or retired firefighters, if the volunteer firefighters' relief association bylaws so permit, could return to active firefighting service without penalty and potentially qualify for an additional service pension. Volunteer firefighters' relief associations are permitted to define in their bylaws a month for crediting service monthly, which may not be less than 16 days, and provides an anniversary date basis for crediting service monthly if the bylaws do not address the issue. The current uniformity of service pensions provision, which has a current exception for unspecified contrary provisions in Minnesota Statutes, Chapter 424A, is modified to specify that the sole exception is a bylaw limit on creditable service credit. As an authorized disbursement from the special fund, a volunteer firefighters' relief association is authorized to pay premiums on casualty insurance from an insurance company licensed to do business in the state instead of the Volunteer Firefighters' Benefit Association of Minnesota. For firefighters covered by a service pension payable in a single payment, the firefighter can designate a trust created under state law as the beneficiary in the event of the firefighters' death. The definitions of survivors applicable to the state-mandated lump sum volunteer firefighter supplemental benefit are made more consistent with the survivor definitions generally applicable in Minnesota Statutes, Chapter 424A. The Brimson Volunteer Firefighters' Relief Association is permitted to utilize a board of trustees of ten rather than the current statutory number of nine.

Article 12: Correction of Prior Drafting Errors eliminates a provision of the Minneapolis Employees Retirement Fund (MERF) Retirement Benefit Fund governing law that was incorrectly included in the transfer of the post-retirement adjustment determination procedure in 2008. An incorrect statutory cross-reference to Minnesota Statutes, Chapter 179, is replaced with a reference to Minnesota Statutes, Chapter 179A, the Public Employee Labor Relations Act in the qualified part-time teacher participation program of the Teachers Retirement Association. An obsolete reference to the former Minneapolis Teachers Retirement Fund Association is eliminated in the proportionate annuity at age 65 general retirement law provision. An outdated full actuarial value service credit purchase payment provision for the Minneapolis Employees Retirement Fund is eliminated and replaced with cross-references to the general retirement law full actuarial value service credit purchase payment provision. A retirement law repealer incorrectly drafted in 1989 is corrected. Incorrect local special law citations in a 2008 repealer of probably obsolete Anoka Volunteer Firefighters' Relief Association, Edina Volunteer Firefighters' Relief Association, and White Bear Lake Volunteer Firefighters' Relief Association local special laws are corrected. An obsolete

actuarial services billing provision relating to the Legislative Commission on Pensions and Retirement when the Commission retained the consulting actuary preparing regular actuarial work is repealed.

Article 13: One Person and Small Group Retirement Provisions revises the Minnesota State Retirement System (MSRS) transportation department pilots provision by removing any mandatory retirement age for pilots, by permitting disability applications after age 62, by permitting application for disability benefits from MSRS-General and using an occupation-specific standard, and by closing the provision to new hires. It also adds employees of the Minneapolis relief associations, who are not covered by the relief association plans, to PERA's included employee definition, clarifies that any employee of these relief associations who is covered by the relief association pension plan is not eligible for the PERA coverage, and to avoid potential double coverage, specifies that contributions to the plan or plans that previously provided primary pension coverage must end when PERA coverage commences. The article also permits a part-time Elizabeth, Minnesota, municipal liquor store employee to purchase four months of service credit in the PERA General Employee Retirement Plan (PERA-General) at full actuarial value, permits a part-time Underwood, Minnesota, municipal liquor store employee to revoke retirement annuity applications previously filed with PERA-General and/or TRA and to continue in public employment and take the two retirement annuities at its conclusion, to permit a former Silver Bay, Minnesota, Veterans Home employee to apply for an MSRS-General disability benefit despite missing the statutory 180-day post-termination limit and receive a disability benefit if otherwise qualified, allows former participants, active or retired, in the Minnesota job share program who were employed on at least a half-time basis, upon application, to receive service credit for MSRS-General on the same basis as non-job share program part-time employees with, for retired state employees, their retirement benefit based on any additional service credit obtained to be recomputed as of the first day of the month next following the effective date of the legislation, but payable without any retroactive recomputed annuity amount, and authorizes a Hennepin County employee to apply for disability benefits from PERA-General, notwithstanding a requirement in PERA disability law that at least two years of service must be provided after returning to PERA-covered employment before being permitted to apply for disability benefits. A public employment benefit authorization provision is clarified to clearly authorize Taft-Hartley Act health and welfare contributions by local government employers.

25	77.25	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.44, Subd. 4	Revises the annuity accrual date provision by permitting annuities to accrue as early as the day after termination rather than on the 16 th of the month after application for retirement if application is made before the 15 th or on the first of the following month if application is made after the 16 th of the month.
26	78.26	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.44, Subd. 5	Revises TRA's reemployed annuitant exempt earnings provision by comparing salary to exempt earnings limits on a fiscal year rather than calendar year basis.
27	79.17	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.47, Subd. 1	Revises TRA's death refund provision by specifying that any permanent disability benefits received by the member prior to death must be subtracted from any death refund to heirs otherwise payable following the member's death.
28	80.26	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.48, Subd. 4	Revises a TRA disability determination provision requiring the TRA executive director to have disability applicants examined by at least two medical practitioners selected by the TRA medical advisor by removing redundant language stating that the practitioners must be selected by the medical advisor.

Summary of S.F. 191, 2nd Engrossment

Sec.	Pg.Ln	Source Bill(s)	Retirement Plan	Stat. Provision	Summary
29	81.7	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.48, Subd. 6	Allows the TRA executive director to waive periodic disabilitant physical examinations.
30	81.18	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.49, Subd. 2	Revises the primary TRA refund provision by specifying that any permanent disability benefits received by the member must be subtracted from any refund otherwise payable to the terminated employee.
31	81.29	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.52, Subd. 2a	Revises a provision requiring employers to report annually on post-retirement income of its employees by indicating that post-retirement income reporting will now occur through the regular payroll cycle reporting.
32	82.19	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.52, Subd. 4b	Revises a TRA payroll cycle reporting requirement provision by adding a requirement that employing units must report the post-retirement salary earned by TRA annuitants who provide teaching service, and by striking the requirement that the employing unit compute service credit for its members.
33	83.12	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	New 354.543	Creates a TRA military service credit purchase at full actuarial value provision that permits a vested TRA member who performed military service before becoming a TRA member, or who had a break in TRA service to provide military service but who failed to purchase service credit in the plan in a timely manner under the more favorable TRA USERRA-compliant military service purchase provision, to purchase TRA service credit at full actuarial value for the initial period of enlistment, induction, or call to active duty without voluntary extension. Purchases are permitted if the individual has not purchased service credit for that military service period in any other Minnesota defined benefit plan. Payment must be made prior to the termination of teaching service
34	85.9	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	354.55, Subd. 11	Revises the TRA deferred annuity augmentation provision by removing obsolete/incorrect references, and clarifies the provision.
35	85.32	SF 578 (Betzold); HF 1123 (Murphy, M.)	First class city teacher plans	354A.096	Corrects a cross-reference in the first class city teacher plan medical leave provision.
36	87.1	SF 578 (Betzold); HF 1123 (Murphy, M.)	First class city teacher plans	354A.12, Subd. 2a	Removes obsolete phase-in language and erroneous Social Security language in the first class city teacher plan employer regular contributions and additional contribution provision.
37	87.25	Commission Amendment S0191-21A, related to SF 578 (Betzold); HF 1123 (Murphy, M.) and SF 1179 (Betzold)	First class city teacher plans	354A.12, New Subd. 6	Adds a new subdivision creating an erroneous salary deduction/direct payment provision.
38	87.25	Commission Amendment S0191-21A	First class city teacher plans	354A.12, New Subd. 7	Adds a new subdivision providing for the recovery of benefit overpayments based on invalid service or salary credit or an erroneous calculation procedure.
39	88.23	Commission Amendment S0191-21A	First class city teacher plans	354A.12, New Subd. 8	Adds a new subdivision specifying additional procedures and limitations on the correction of erroneous deductions and contributions.
40	89.6	Commission Amendment S0191-21A	First class city teacher plans	354A.12, New Subd. 9	Specifies employer responsibility for any federal IRS fees or penalties related to erroneous membership or salary reporting.
41	89.13	SF 578 (Betzold); HF 1123 (Murphy, M.)	First class city teacher plans	354A.36, Subd. 6	Allows a first class city teacher retirement fund association executive director to waive periodic disabilitant physical examinations.
42	90.9	SF 578 (Betzold); HF 1123 (Murphy, M.)	Retirement, generally	356.401, Subd. 2	Revises automatic deposit authority provision by placing restrictions on deposits to joint or multi-party accounts. Direct deposit to joint accounts may only be made if the benefit recipient consents in writing to authorize the financial institution to release to the pension fund the names and addresses of joint owners of the account. If there is an overpayment to the account following the death of the annuitant, the pension plan can issue an administrative subpoena ordering the financial institution to disclose the account co-owners and all deposits and withdrawals from the account which occur after the annuitant's death.
43	90.31	SF 578 (Betzold); HF 1123 (Murphy, M.)	Retirement, generally	356.465, Subd. 1	Amends the authority for retiring plan members to name a supplemental needs trust to the second half of a joint-and-survivor annuity to clarify that this provision does not take precedence over the mandatory spousal joint-and-survivor provision enacted in 2008.
44	91.6	SF 578 (Betzold); HF 1123 (Murphy, M.)	TRA	356.465, New Subd. 4	Expands the authority to designate a supplemental needs trust as the second recipient of a joint-and-survivor optional annuity form to include an active, disabled, or deferred TRA member.

2	121.29	SF 1878 (Betzold); HF 1983 (Kahn)	Minneapolis Fire	423C.03, Subd. 1	Permits the relief association to reduce the size of its board of trustees through bylaw amendment.
Article 10: Voluntary Statewide Lump-Sum Volunteer Firefighter Retirement Plan					
1	122.5	SF 504 (Betzold); HF 825 (Murphy, M.)	State Board of Investment	11A.17, Subd. 1	Creates an eighth account within the supplemental investment fund for investment of the voluntary statewide lump-sum volunteer firefighter retirement plan and also available for various VFRAs. Adds to head note a more accurate reflection of contents.
2	122.15	SF 504 (Betzold); HF 825 (Murphy, M.)	State Board of Investment	11A.17, Subd. 2	Provides for the investment of the voluntary statewide lump-sum volunteer firefighter retirement plan in the supplemental investment fund and requires plan investments in the special statewide lump-sum volunteer firefighter account.
3	122.28	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.011, Subd. 1	Defines the term "voluntary statewide lump-sum volunteer firefighter retirement plan" for the fire state aid program.
4	124.31	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.011, Subd. 2	Provides that for municipalities participating in the voluntary statewide lump-sum volunteer firefighter retirement plan, the PERA executive director will certify the existence of that retirement coverage for each municipality, with the applicable municipal clerk and fire chief responsible for certifying fire personnel and fire department equipment.
5	126.3	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.011, Subd. 4	Clarifies that municipalities with firefighters covered by the voluntary statewide lump-sum volunteer firefighter retirement plan are subject to the same fire department personnel/equipment requirements as applicable to other municipalities and fire departments.
6	126.29	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.011, Subd. 7	Provides that municipalities participating in the voluntary statewide lump-sum volunteer firefighter retirement plan are eligible for a minimum fire state aid allocation based on the number of firefighters (up to 30) applicable to the municipality, and provides for the payment of fire state aid for municipalities participating in the voluntary statewide plan to the statewide plan and credited to the municipality.
7	128.29	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.021, Subd. 9	Includes the voluntary statewide lump-sum volunteer firefighter retirement plan in the entities entitled to appeal state aid apportionments.
8	129.3	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.031, Subd. 1	Provides for the issuance of warrants to PERA for fire state aid payable with respect to participants in the voluntary statewide lump-sum volunteer firefighter retirement plan.
9	129.15	SF 504 (Betzold); HF 825 (Murphy, M.)	Fire State Aid	69.031, Subd. 5	Provides for the deposit of fire state aid directly to the voluntary statewide lump-sum volunteer firefighter retirement plan to the credit of the applicable municipality.
10	131.24	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.01	Defines the terms advisory board, board, commissioner of finance, executive director, fund, good time service credit, member, municipality, plan, retirement fund, retirement plan, standards for actuarial work, State Board of Investment, and volunteer firefighter. Good time service credit means the length of service credit for an active firefighter as reported by the respective fire chief based on the minimum firefighter activity standards of the fire department, either monthly or annually. Member is a volunteer firefighter who provides active service to a fire department where coverage by the voluntary statewide lump-sum volunteer firefighter retirement plan has been elected and where the service is covered by the retirement plan. Volunteer firefighter means a person who is an active department member and, in that capacity, engages in fire suppression, emergency response, fire education, or fire prevention on an on-call basis.
11	132.30	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.02	Creates the voluntary statewide lump-sum volunteer firefighter retirement plan and fund, administered by PERA, invested by the SBI, audited by the Legislative Auditor, and represented by the Attorney General.
12	134.1	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.03	Creates an advisory board to advise the PERA board about the retirement coverage needs of and accommodations for volunteer firefighters. The advisory board consists of a Minnesota Association of Townships appointee, two League of Minnesota Cities appointees, a Minnesota State Fire Chiefs Association appointee, two Minnesota State Fire Departments Association appointees, and an Office of the State Auditor representative. The terms of the appointees are staggered and, after the initial set of appointments, are for three years. The compensation of advisory board members is governed under the state advisory panel provisions.

Summary of S.F. 191, 2nd Engrossment

Sec.	Pg.Ln	Source Bill(s)	Retirement Plan	Stat. Provision	Summary
13	134.34	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.04	Requires municipal and fire department chief executive officers to provide all relevant information and records requested by the PERA board or executive director or the SBI.
14	135.5	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.05	Allows municipalities and independent nonprofit firefighting corporations to elect to have coverage for their volunteer firefighters provided by the voluntary statewide lump-sum volunteer firefighter retirement plan. The process is initiated jointly by a cost analysis request by the chief administrative officer of the municipality and the volunteer firefighters' relief association (VFRA) secretary if the volunteer firefighters are covered by a VFRA, or a request from the chief administrative officer of the entity operating the fire department if no VFRA exists. The cost analysis would be based on the service pension level closest to the service pension amount provided by the VFRA, rounded up, if there is a VFRA, or the lowest service pension level if there is no VFRA, and any other potential service pension levels designated in the request and would be prepared using a mathematical procedure established by the consulting actuary retained by PERA. The cost analysis will be based on the financial and demographic information available from the State Auditor if there is a VFRA or supplied by the chief administrative officer of the entity operating the fire department. The cost analysis request also triggers a review by SBI for conformity with M.S., Ch. 11A, and for compliance with board investment policy. Once a cost analysis is provided, the municipality or independent nonprofit firefighting corporation has 90 days to approve or disapprove the retirement coverage change. If approved, the retirement coverage change is effective on the next following January 1.
15	136.26	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.06	If a retirement coverage change to the voluntary statewide lump-sum volunteer firefighter retirement plan is approved, the special fund of the applicable VFRA ceases to exist on the December 31 before the coverage change and legal title to the special fund transfers to the State Board of Investment, with beneficial title to those assets remaining with the applicable volunteer firefighters. If the asset value declines in the interval before the transfer of title, the applicable municipality must transfer an amount equal to the investment loss. After the retirement coverage change, the VFRA may continue as a fraternal entity with a board of trustees of five (fire chief plus four elected active firefighters), but may only maintain a general fund, may not receive any municipal funds or state aid, and may not pay any retirement benefit not authorized for the general fund before the coverage change process began. The statewide plan becomes the successor in interest to the prior VFRA special fund for all claims except for fiduciary actions not taken in good faith and constituting a breach.
16	138.3	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.07	Good time service credit by active firefighters is certified by the applicable fire chief annually by March 31. Active firefighters must be notified of their good time service credit determination by the fire chief, which the firefighter can challenge at a public hearing with the fire chief. If the fire chief's final determination is contested by the firefighter, it is not reviewable by PERA. The good time certification is a public document and a false certification or the provision of false information in connection with the certification has the same penalty as the provision of false information to PERA under M.S., Sec. 353.19. The good time certification is a percentage of a full year that represents the portion of a year undertaking firefighter activities, up to 100% in a calendar year. If a firefighter renders military service under USERRA, the person receives a full year of good time service credit unless the person does not return to firefighting service in a timely fashion, whereupon the good time credit cancels.
17	139.4	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.08	The funding requirements of each volunteer firefighter account in the voluntary statewide lump-sum volunteer firefighter retirement fund will be determined annually by PERA, consisting of the account's annual accruing liability, the proportional portion of the plan's administrative expenses, and the account's amortization contribution, set at one-tenth of the unfunded actuarial accrued liability of the account and allows credits against a funding surplus with three years of funding surpluses. The required contribution of the entity associated with the covered fire department is the amount of the funding requirements in excess of the most recent fire state aid amount attributable to the fire department. Unpaid required contributions are subject to the regular collection procedures of the PERA.
18	141.4	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.09	Volunteer firefighters who separate from active fire department service for at least 30 days, are at least age 50, and have at least five years of good time service credit may apply for a benefit. Firefighters are partially vested for a service pension

					with five years of good time service credit and are fully vested for a service pension with at least 20 years of good time service credit. For plan members who retire before rendering at least five years of service under the statewide plan, a service pension at the cost benefit level of the prior volunteer fire relief association is payable as an alternative.
19	142.16	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.10	Volunteer firefighters who otherwise qualify for a service pension but who are under age 50 when terminating active fire department service are entitled to a deferred service pension, based on the service pension vesting schedule, and payable without any interest over the deferral period.
20	142.25	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.11	The retirement plan will offer 16 levels of service pension, from a low of \$500 to a high of \$7,500 per year of good time service credit. Annually, after obtaining a cost estimate from PERA for a new service pension level, the governing body of the entity operating the fire department may approve the selection of a higher service pension level. Retiring volunteer firefighters also qualify for the 1988 state supplemental lump-sum benefit. The voluntary statewide lump-sum volunteer firefighter retirement plan does not pay any ancillary benefits other than a survivor benefit.
21	143.23	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.12	If an active or deferred member of the plan dies before receiving a service pension from the plan, the survivor of the member is entitled to receive a survivor benefit equal to the service pension that would have been payable to the member at age 50.
22	143.32	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.13	A volunteer firefighter with two or more periods of firefighting service covered by the voluntary statewide lump-sum volunteer firefighter retirement plan totaling at least five years of good time service credit is eligible to receive a combined service pension based on all periods, with the total benefit amount consisting of the service pension levels for the applicable lengths of service.
23	144.13	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.14	In lieu of direct receipt of a lump-sum service pension, a retiring volunteer firefighter may request that the voluntary statewide lump-sum volunteer firefighter retirement plan purchase an annuity contract from an insurance company so long as the insurance company is licensed to do business in Minnesota and the initial annuity payments do not begin before age 50.
24	144.23	SF 504 (Betzold); HF 825 (Murphy, M.)	Statewide Volunteer Fire Plan	New 353G.15	In lieu of direct receipt of a lump-sum service pension, a retiring volunteer firefighter who is at least age 50 may elect to have the service pension amount transferred on an institution-to-institution basis to an individual retirement account.

Summary of S.F. 191, 2nd Engrossment

Sec.	Pg.Ln	Source Bill(s)	Retirement Plan	Stat. Provision	Summary
21	162.7	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	424A.01	Revises subdivision to prohibit minors from being VFRA members, to conform with the relocation of the restriction on minors as firefighters. Modifies the restrictions on volunteer firefighters and VFRA membership by adding some explicit parallel verb references and by eliminating obsolete words and phrases to conform with current drafting and language usage conventions.
22	165.5	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	New 424A.015	Adds a section that sets forth the provisions that are generally applicable to VFRAs and that are moved from current M.S., Sec. 424A.02, Subd. 1, Para. (d), and Subd. 6 (required separation from active service and exception and restriction on assignment or garnishment), Subd. 8a (purchase of annuity contract), and Subd. 8b (transfer to an individual retirement account).
23	166.12	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	New 424A.016	Adds a section that: <ol style="list-style-type: none"> 1. Specifically authorizes defined contribution lump-sum service pension relief associations (Subd. 1); 2. Repeats the service pension eligibility requirements from the current Sec. 424A.02, Subd. 1, that are applicable to defined contribution relief associations (Subd. 2); 3. Transfers the defined contribution relief association vesting schedule from the last portion of current Sec. 424A.02, Subd. 2 (Subd. 3); 4. Transfers the defined contribution relief association individual account provisions from the current Sec. 424A.02, Subd. 4 (Subd. 4); 5. Adapts for defined contribution relief associations the installment payment authority of the current Sec. 424A.02, Subd. 8 (Subd. 5); 6. Transfers the defined contribution relief association deferred service pension provision from the current Sec. 424A.02, Subd. 7 (Subd. 6); 7. Adapts the limitation on ancillary benefits of the current Sec. 424A.02, Subd. 9, for defined contribution relief associations (Subd. 7); 8. Adapts the penalty for the payment of service pension without actual active service separation of the current Sec. 424A.02, Subd. 9b, for defined contribution relief associations (Subd. 8); and 9. Adapts the bylaw amendment filing requirement of the current Sec. 424A.02, Subd. 10, for defined contribution relief associations (Subd. 9).
24	170.6	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	424A.02, Subd. 1	Amends the defined benefit service pension authorization provision by clarifying that the entire section and the subdivision apply solely to defined benefit relief associations, clarifies that defined benefit service pensions must be earned under M.S., Ch. 424A, under the relief association articles of incorporation, and under the relief association bylaws, and clarifies the time test on inactive relief association membership for recently established relief associations. VFRAs are permitted to define in their bylaws a "month" for monthly service crediting programs, with a minimum of 16 days to constitute a month and a default definition of month as a completed calendar month measured from the entry anniversary date to the same day of the next month.
25	171.22	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	424A.02, Subd. 2	Amends the vesting requirement provision by clarifying that the provision applies to defined benefit relief associations and by striking the defined contribution vesting provision transferred to new Sec. 424A.16.
26	172.30	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	424A.02, Subd. 3	Amends the flexible service pension maximums by clarifying that the provision applies to defined benefit relief associations and updates the provision to conform to the current language usage conventions. Incorporates the uniformity previously included in M.S., Sec. 424A.02, Subd. 6, repealed to be divided into other sections.
27	179.36	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	424A.02, Subd. 3a	Amends the excess service pension payment penalty by clarifying that the provision applies to defined benefit relief associations. Transfers the onus for the collection of overpaid deferred benefit service pension amounts from the Office of the State Auditor to the VFRA treasurer upon receipt of an order from the State Auditor.
28	180.30	SF 1001 (Betzold); HF 1129 (Murphy, M.)	VFRAs	424A.02, Subd. 7	Amends the deferred service pension provision by clarifying that the provision applies to defined benefit relief associations, clarifies that the specified qualifying service periods were alternative provisions and re-letters later paragraphs with the elimination of the defined contribution relief association provision moved to new Sec. 424A.016.
29	182.8	SF 1001 (Betzold);	VFRAs	424A.02,	Amends the lump-sum service pension installment payment
