General Summary of the 2015 Proposed Retirement Legislation Compilation

Article 1: Interest Rate, Salary Rate, and Payroll Growth Actuarial Assumption Changes.

(*Derived from HF660/SF613*)

- Amends the economic actuarial assumption specification portion of the Minnesota public employee retirement plan actuarial valuation reporting law by eliminating the 2011 select and ultimate interest rate actuarial assumption for almost all statewide and major local retirement plans, by reducing in most instances the future interest rate actuarial assumption to 8% for the applicable retirement plans, and by reducing in most instances the salary increase actuarial assumption and the payroll growth assumption for the applicable retirement plans.

Article 2: Conforming Changes in Refund Repayment Provisions Related to Interest Assumption Changes. *(Derived from amendment H0660-5A to HF660/SF613)*

- Resets the refund repayment compound interest rate at the current 8.5% rate through June 30, 2015, and at an 8.0% rate after June 30, 2015.

Article 3: Conforming Changes in Leave and Prior Service Credit Purchase Provisions Related to Interest Assumption Change. *(Derived from amendment H0660-6A to HF660/SF613)*

- Resets the prior service credit purchase payment determination interest rate at the current 8.5% rate through June 30, 2015, and at an 8% rate after June 30, 2015.

Article 4: Post-Retirement Adjustment Financial Sustainability Trigger Modifications. *(Derived from HF565/SF519)*

- Revises the reduced rate post-retirement adjustment mechanisms of many statewide retirement plans (all but the General Employee Retirement Plan of the Public Employees Retirement Association (PERA-General) and the Local Government Correctional Service Retirement Plan (PERA-Correctional)) and the post-retirement adjustment mechanism of the St. Paul Teachers Retirement Fund Association (SPTRFA), by increasing the minimum receipt period required to qualify for an SPTRFA post-retirement adjustment, by reducing the minimum receipt period required to qualify for a postretirement adjustment for most of the statewide retirement plans, by providing for a future post-retirement adjustment reduced rate if funded ratios fall below the current law rate restoration triggers for the plans administered by the Minnesota State Retirement System (MSRS), for the Teachers Retirement Association (TRA), and for the St. Paul Teachers Retirement Fund Association (SPTRFA), and by eliminating the Consumer Price Index-based post-retirement adjustment mechanism currently applicable, but never implemented by, the Public Employees Police and Fire Retirement Plan (PERA-P&F)

Article 5: Contribution Stabilizer Provision Modifications. *(Derived from HF566/SF518)*

- Revises the member and employer contribution stabilizer mechanisms added to some or all retirement plans administered by the Minnesota State Retirement System (MSRS), the Public Employees Retirement Association (PERA), and the Teachers Retirement Association (TRA), by shifting the mechanism from a mandatory, virtually automatic, rate-setting procedure to an advisory procedure, by relaxing the specific increments of contribution rate increases or decreases to be imposed to resolve funding deficiencies or sufficiencies, and by specifying the circumstances that each of the governing boards should consider prior to forwarding its contribution rate change recommendation to the Commission.

Article 6: Police and Firefighters Retirement Supplemental State Aid. *(Derived from Amendment H0826-3A to HF826/SF884)*

- Exempts the recipient municipalities and nonprofit firefighting corporations from the pension plan funded condition termination provision for the Public Employees Police and Fire Retirement Plan (PERA-P&F) and the State Patrol Retirement Plan, making the supplemental aid to volunteer firefighters permanent.

Article 7: Statewide Volunteer Firefighter Retirement Plan Lump Sum Retirement Division Modifications. *(Derived from HF1204/SF1140)*

- Clarifies the short service former defined contribution retirement plan alternative benefit for members of defined contribution volunteer firefighters relief associations that recently joined the statewide volunteer firefighter retirement plan, expands from 20 to 71 the number of lump sum retirement benefit levels available to be selected by the fire department on or after joining the plan, revises the timeframe and deadline date for electing retirement benefit level changes, and clarifies the eligibility for and computation of portable retirement benefits

Article 8: Statewide Volunteer Firefighters Retirement Plan Monthly Benefit Retirement Division Creation. *(Derived from HF599/SF537)*

- Expands the current voluntary statewide lump-sum volunteer firefighter retirement plan and fund from applicability solely to lump sum and defined contribution volunteer firefighter relief associations to also authorize the election of coverage by and transfer assets and administration from one or more of the current 22 monthly benefit or combination lump sum/monthly benefit volunteer fire-fighter relief associations by creating two divisions in the retirement plan, one for the original lump sum retirement plan participants and a new one of any monthly benefit retirement plan participants.

Article 9: Volunteer Firefighter Relief Association Working Group Recommendations.

(Derived from HF826/SF884)

- Delegates the specification of the procedures for the certification of volunteer firefighters relief association financial statements to the State Auditor's office, includes auditing and accounting services specifically in allowable administrative expenses, and requires multiple check signers for relief association disbursements.
- Permits the State Auditor to waive penalty for certain maximum service pension amount determination errors and clarifies ineligibility of lump-sum volunteer firefighters relief associations to grant post-retirement adjustments.
- Adds references to the 2013 police and fire retirement supplemental state aid to fire state aid references in various aspects of volunteer firefighters relief association benefit and funding provisions.
- Provides a default start date for membership commencement unless relief association specifies a different date and limits the number of relief associations to be associated with a fire department.

Article 10: Particular Volunteer Firefighter Relief Association Changes.

(Derived from HF41/SF61, HF45/SF215, and HF298/SF251)

- Provides an exception for the Roseville Volunteer Firefighters' Relief Association to increase the number of permitted retired board members as the active membership of the relief association and clarifies the disposition of plan assets as an asset of the Roseville city treasury upon the payment of the last annuity or benefit payment from the relief association.
- Provides a resolution to the future retirement coverage for firefighters after the dissolution of the current three-city form of the Centennial Joint Powers Fire Department by permitting, with local approval by all three cities, current Centennial Fire Department firefighters who elect to do so to transfer their service credit and their proportional share of relief association assets to volunteer firefighter relief associations in adjoining fire service areas.
- Permits the Proctor Volunteer Firefighters Relief Association to increase lump-sum service pensions for prospective years of service only after December 31, 2013, without being required to uniformly apply that increase to such pensions for years of service rendered before the date of increase.
